

Open Letter to State and Central Government Authorities in India

Date: 15-03-2025 | Place: Hyderabad | Author: Sameer A. Khan

I respectfully deny that I have ever attempted to assert any type of personal influence over any judiciary process regarding any matter, via telecommunications with officials belonging to agencies from Telangana State Government or the Central Government of India. I have never had any social contact with those officials in any non-professional or community settings. I do not have any social or political clout, and I also don't have the ability to influence august and just members of those government entities, in any untoward manner.

Having said that, due to my experience as an eye-witness, a set of ongoing misconducts of members belonging to Telangana's Ranga Reddy District Consumer Disputes Redressal Commission (the District Consumer Forum), were observed and experienced by me, on a day-to-day basis in the year 2024. My intentions and actions, have been clearly and transparently observable, to various and several authority figures, via the contents of private and confidential e-mails and postal letters sent to them. Those formal communications indicate that I was compelled to provide information to competent authorities, with a request for their offices to address the obviated forms of malfeasance, of particular duty-bound public servants, via timely and just actions. Those authorities received a much more detailed version of this letter, which was given to them as per the jurisdiction and mandate of concerned State or Central Government Agencies, in the interests of social-justice.

And now, I would like to provide physical evidence in the form of photographs which, are indicative of the rot and decay that is at the very core of the District Consumer Forum. I am presenting these pieces of evidence without disdain or contempt for the overall justice system, but with the obvious dissatisfaction and dismay with the physical upkeep and functioning of the District Consumer Forum.

दिया तले अंधेरा
Diya tale andhera.

**यह है इनकी शोभा, यह है इनकी महिमा, यह है इनकी गरिमा, यही है इनकी क्षमता
Yeh hai inki shobha, yeh hai inki mahima, yeh hai inki garima, yehi hai inki kshamta.**

The presented photographs are included herein with the intent of fair-use, for the purposes of having to obviate an endemic issue, within the building compound of the Ranga Reddy District Court Complex at L. B. Nagar, Hyderabad, Telangana.

Ranga Reddy District is the highest revenue generating district within Telangana and yet, particular buildings within it's Court Complex are severely impoverished. If the Yearly Financial Budgets for the past five years of the District Consumer Forum indicate a sizable spending on equipment and furniture for the building's Court Hall, then where are those new equipment and furniture?

How is it that practically every chair available to Advocates and Complainants in the District Consumer Forum's Court Hall is stained and/or torn? If I couldn't find the "new furnishings" via visual inspection over a period of months, then the Central Bureau of Investigation (CBI) will most certainly be able to find the missing monies or furnishings through a deeper search involving raids. Monies obtained by the District Consumer Forum from the Authorities of Telangana State Commission and the Central Commission for Consumer Disputes Redressal, has obviously been misappropriated by those incharge of managing the District Consumer Forum.

So what type of credibility or efficacy of the District Consumer Forum is a resident of Ranga Reddy District to believe in, or invest faith in, while witnessing such a pathetic situation of the said Forum?
