

 Causal Factor 1
Continental Hospitals Pvt Ltd (CHPL) of Gachibowli, Hyderabad, deliberately does not provide a proper invoice for rendered healthcare goods and services, to “Consumers” from the public at large.

 Causal Factor 2
CHPL has a premeditated corporate policy to not discharge the patient until and after the so-called “Final Bill” is settled by the patient’s guardian or next-of-kin.

 Causal Factor 3
Employees, scholars and retirees of Central Universities along with their dependents are exclusively referred to so-called “Referral Hospitals” like CHPL, via the dishonest lure of Central Govt. Health Scheme rates.

 Routine Event
An Indian citizen or a foreign visitor, from the general public is admitted into CHPL as an inpatient. The patient’s legal guardian or available next-of-kin disputes the hospital’s hiked bills and unjust trade practices.

Ongoing Organized Crimes in Healthcare and Pharma Industry of Telangana State, India.

(Open Source Knowledge)
In The Interest of Justice & Public Awareness

 Culpable Result
The inpatient is opportunistically abducted and wrongfully held captive by CHPL in its hospital building, as a chattel and as a piece of collateral property, for extorting the patient’s guardian and next-of-kin. This is a predatory crime against vulnerable people.

 Ongoing Serious Issue
The local Police Commissionerate is unable or unwilling to prosecute such ongoing organized crimes of mafia bosses. The Police disingenuously sends victims to “Consumer Disputes Redressal Forum” for due justice, but that judicial body cannot recognize and prosecute the felonies and Fundamental Rights violations hidden in daily trade practices of bad organizations.
